A Companion to the Archaeology of Religion in the Ancient World presents a comprehensive overview of a wide range of topics and archaeological materials relating to the practices, expressions, and interactions of religion in antiquity. Chapters are primarily focused on "lived religion"--religious experience rather than belief--in the Greco-Roman world, and take their point of departure in concepts, aspect, and empirical material relating to central themes within the archaeology of religion.

Brian Fagan's 'Oxford Companion to Archaeology' is a wonderful encyclopedic dictionary of archaeology worldwide. In the past century and a half, archaeology has graduated from being the hobby of pith-helmeted explorers in search of the unknown cities and treasure to the scientific and research-oriented study of ancient civilisations.
