Adam and humanity are cursed to die and return to the earth (or ground) from which he was formed. This "earthly" aspect is a component of Adam's identity, and Adam's curse of estrangement from the earth seems to describe humankind's divided nature of being earthly yet separated from nature.

"How the insights of an 18th century economist can help us live better in the 21st century. Adam Smith became famous for *The Wealth of Nations*, but the Scottish economist also cared deeply about our moral choices and behavior--the subjects of his other brilliant book, *The Theory of Moral Sentiments* (1759). Now, economist Russ Roberts shows why Smith's neglected work might be the greatest self-help book you've never read. Roberts explores Smith's unique and fascinating approach to fundamental questions such as: - What is the deepest source of human satisfaction? - Why do we sometimes swing between selfishness and altruism? - What's the connection between morality and happiness? Drawing on current events, literature, history, and pop culture, Roberts offers an accessible and thought-provoking view of human behavior through the lenses of behavioral economics and philosophy"--

Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance.

Can Christianity and evolution coexist? Traditional Christian teaching presents Jesus as reversing the effects of the Fall of Adam. However, an evolutionary

view of beginnings doesn't allow for a historical Adam, making evolution seemingly incompatible with what Genesis and the apostle Paul say about him. For Christians who accept evolution and want to take the Bible seriously, this presents a faith-shaking tension. Peter Enns, an expert in biblical interpretation, offers a way forward by explaining how this tension is caused not by the discoveries of science but by false expectations about the biblical texts. Focusing on key biblical passages in the discussion, Enns demonstrates that the author of Genesis and the apostle Paul wrote to ask and answer ancient questions for ancient people; the fact that they both speak of Adam does not determine whether Christians can accept evolution. This thought-provoking book helps readers reconcile the teachings of the Bible with the widely held evolutionary view of beginnings and will appeal to anyone interested in the Christianity-evolution debate.
