The New York Times bestseller: "You gotta read this. It is the most exciting book about Pluto you will ever read in your life." —Jon Stewart When the Rose Center for Earth and Space at the American Museum of Natural History reclassified Pluto as an icy comet, the New York Times proclaimed on page one, "Pluto Not a Planet? Only in New York." Immediately, the public, professionals, and press were choosing sides over Pluto's planethood. Pluto is entrenched in our cultural and emotional view of the cosmos, and Neil deGrasse Tyson, award-winning author and director of the Rose Center, is on a quest to discover why. He stood at the heart of the controversy over Pluto's demotion, and consequently Plutophiles have freely shared their opinions with him, including endless hate mail from third-graders. With his inimitable wit, Tyson delivers a minihistory of planets, describes the oversized characters of the people who study them, and recounts how America's favorite planet was ousted from the cosmic hub.

Moving between journal entry, memoir, and exposition, Audre Lorde fuses the personal and political as she reflects on her experience coping with breast cancer and a radical mastectomy. A Penguin Classic First published over forty years ago, The Cancer Journals is a startling, powerful account of Audre Lorde's experience with breast cancer and mastectomy. Long before narratives explored the silences around illness and women's pain, Lorde questioned the rules of conformity for women's body images and supported the need to confront physical loss not hidden by prosthesis. Living as a "black, lesbian, mother, warrior, poet," Lorde heals and re-envisions herself on her own terms and offers her voice, grief, resistance, and courage to those dealing with their own diagnosis. Poetic and profoundly feminist, Lorde's testament gives visibility and strength to women with cancer to define themselves, and to transform their silence into language and action.

" Jo Weldon is the gold-standard for New Burlesque. I am proud to call her my friend, and unashamed to admit she ' s my idol. " — Lily Burana, author of Strip City: A Stripper's Farewell Journey Across America From one of the stars of the New Burlesque scene, Jo Weldon, comes a definitive, easy-to-use, and indispensable guide to the art form, with a foreword by superstar comedian and burlesque enthusiast Margaret Cho. Fans of Dita Von Teese—as well as performers of every stripe—will love the helpful advice and feisty attitude of The Burlesque Handbook.

Written by David Cohen and co-authors Theodore B. Lee and David Sklar, PRECALCULUS, Seventh Edition, focuses on the use of a graphical perspective to provide a visual understanding of college algebra and trigonometry. Cohen's texts are known for their clear writing style and outstanding, graded exercises and applications, including many examples and exercises involving applications and real-life data. Graphs, visualization of data, and functions are introduced and emphasized early on to aid student understanding. Although the text provides thorough treatment of the graphing calculator, the material is arranged to allow instructors to teach the course with as much or as little graphing utility work as they wish.
