The exact risk profile of Credit Suisse Index Fund Solutions is determined by the selection of the specific sub-fund and depends on the replicated indices. Unlike active investments, passive investments are strictly linked to the respective market, which is why a passive investment can be expected to incur a loss that is proportionate to any market loss.

Credit Suisse also needs to decide where its operational focus lies: the so-called CSAM unit's core business is index and mutual funds, credit, real estate, and so-called multi-asset vehicles. Nearly one-third of its assets sit within highly specialized alternative investments: hedge funds and private market vehicles.
