Nearly half of adults, including parents of middle-school students, have never heard of the Common Core State Standards, let alone have a working knowledge of what exactly their children face when it comes to middle-school math. Even teachers acknowledge struggling with how best to teach their students these math standards. CliffsNotes comes to the rescue with this Grade 6 Common Core Math Review. Aligned to the state standards, this book provides essential coverage of the Grade 6 CCSS math that's challenging middle-school students, teachers, and parents alike. The material covers all of the math standards that comprise Grade 6 CCSS math: • Ratios and proportional relationships •

This book presents current knowledge of seed fate in both natural and human-disturbed landscapes, from various regions of the world. Habitats considered range from mountain and arid deserts in the temperate zone, to savanna and lowland rainforests in tropical regions of the world. Particular attention is paid to plant diversity conservation when seed removal is affected by factors such as hunting, habitat fragmentation or intensive logging. Contributors include leading scientists involved in research on seed ecology and on animal-plant relationships from the perspective of both primary and secondary seed dispersal, and predation.
