CMH Publication 70-30. Edited by Frank N. Schubert and TheresaL. Kraus. Discusses the United States Army's role in the Persian Gulf War from August 1990 to February 1991. Shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index.

The Red Circle: My Life in the Navy SEAL Sniper Corps and How I Trained America's Deadliest Marksmen Now including an excerpt from The Killing School: Inside the World's Deadliest Sniper Program BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS... HE HAD TO BECOME ONE HIMSELF. Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, The Red Circle provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy "sniper cell" and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors-including Marcus Luttrell and Chris Kyle-that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military. Explosive, revealing, and intelligent, The Red Circle provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world.

This first book of its kind tells the behind-the-scenes story of the incredibly illegal Cannonball rally. This best seller is now available in paperback!In the early 1970s, Brock Yates, senior editor of Car and Driver Magazine, created the now infamous Cannonball Sea-to-Shining-Sea Memorial Trophy Dash; a flat out, no-holds-barred race from New York City to Redondo Beach, California. Setting out to prove that well trained drivers could safely navigate the American highways at speeds in excess of the posted limits, Mr. Yates created a spectacle reminiscent of the glory days of the barnstorming pilots. Filled with fascinating unpublished stories, nostalgic and modern-day photographs, inside information and hilarious stories from this outrageous and incredibly immoral rally. Brock is one of the best-known, most respected automotive journalists in the world today.

Follows the growth of the Japanese automobile industry, with information on the production of every Japanese manufacturer, technical specifications, racing car versions, the evolution of car design and all experimental prototypes

"60 Years of Holden" builds on the success of itspredecessors (45 and 50 Years of Holden), bringingtogether vast amounts of technical information andspecifications on the 100 model series that Holden hasproduced since it began manufacturing. Beginning withHolden's pre-1948 history, this book charts Holden'scourse in Australia, with .....
