A funny, touching, endearing romp towards happiness by one of New Zealand's best-loved writers. 'In 1997 I wrote my first book about always being on a diet but never being thin. I wanted to call it Screw You Dolores after an anecdote that I felt summed up the attitude I wanted to promote, but my publisher at the time said it was too rude; that little old ladies might be too embarrassed to ask for it or booksellers might want to hide it in brown paper bags. 'In 2013 I wrote my twelfth book and called it Screw You, Dolores. It's about knowing when to do what someone tells you to do, and knowing when to tell them to stick it up their jacksie.' This first book in Sarah-Kate Lynch's Wicked Approach To ... series tackles the subject of happiness, and how and where to find it - especially when you hit that milestone birthday of 50. Just like its author, it's sharp, full of attitude, funny and sassy. Buy it for yourself or for a friend for a good giggle. And buy it because, as she explores how to make herself happy by ignoring the expectations of others, Sarah-Kate Lynch finds great wisdom too.

There's no business like the car business! Within months of its launch in late 1998, with every well-known global automobile brand jockeying for a foothold in a small-car market almost monopolized by Maruti Udyog Limited, Hyundai Motor India's debut production, the Santro, emerged as a force to reckon with. The first car to be conceptualized and designed for and then developed and manufactured in India, the `Sunshine Car' has, over a period of sixteen years, set the record for the quickest small car brand to go from zero to one million units sold. It achieved profitability for Hyundai at an unprecedented speed and made an impressive global impact as a made-in-India automobile in markets as diverse as Algeria and Zimbabwe, Western Europe and North America. In Santro: The Car That Built a Company, BVR Subbu, who spearheaded much of the Santro's success, reveals the hitherto untold story of how this small car made such a big impact. Vivid anecdotes detail the challenges of introducing a new product in a new market, the canny business strategies that were employed to get the better of rival brands, the unforgettable marketing campaigns that made all the difference and the thrills of the high-stakes power battles and everyday drama that characterize corporate India. By turns revelatory, insightful and delightfully engaging, this is a business story with a difference about a car like no other.
