A well-trained tracking dog can be the deciding factor in both criminal investigations and search-and-rescue operations. When the stakes are high and you demand only top performance from your K9, you need training methods relied upon by police forces and search-and-rescue teams around the world. Dr. Resi Gerritsen and Ruud Haak show you how to train your dog in clean-scent tracking, a proven method that trains dogs to follow a particular scent on a track while ignoring crosstracks and other odors. In *K9 Professional Tracking*, you'll learn how to start a successful clean-scent tracking program from the ground up: how to pick the right dog, what equipment you need, how to lay a track, and which exercises work. Resi and Ruud also break down the science of scent and the dog's nose, critical information that allows you to fully understand what your K9 is and is not capable of in the field. With the right knowledge and techniques, you'll be able to train tracking dogs to the highest professional standards.

Working Dog Handler Medical Care Manual (2017), 100 pages INTRODUCTION Military Working Dogs (MWDs) are at the same risk for injury as their human counterparts and when they are severely injured, best practice for resuscitation mirrors those recommended for humans.1 A recent study of trauma in MWDs shows that explosions, gunshot wounds and lacerations account for the vast majorities of injuries sustained within the Central Command area of responsibility. In severe cases, these mechanisms of injuries could require resuscitation with blood products. Hemostatic resuscitation has been shown in a many species to be superior to resuscitation with crystalloids or synthetic colloids and should therefore be considered the first-choice resuscitation product in severely wounded MWDs.

Understand dog behavior to work with, not against, your K9's instincts. Learn how to: Recognize and interpret your K9's expressions, gestures and signals. Use operant conditioning to efficiently and humanely train K9s. Plan and execute effective K9 training programs for search and detection, patrol, remote guided camera, attack, and more. The art and science of training police, military and other service dogs continue to evolve as we learn more about dog behavior. In this revised edition of *K9 Behavior Basics*, expert dog trainers Dr. Resi Gerritsen, Ruud Haak and Simon Prins share the essentials every trainer needs to know about these advances in K9 training. You'll learn how to successfully implement or improve your dogs' training programs using operant conditioning. The authors outline key concepts in dog behavior and communication and provide practical approaches to operant conditioning. They share proven techniques and solid advice from their more than thirty years of specialized K9 experience. Whether you're just starting out or are a seasoned pro staying up-to-date, *K9 Behavior Basics* has something for you. Get a free ebook through the Shelfie app with the purchase of a print copy.

A comprehensive guide to training and certifying K9 explosive detection teams Learn how to: - Train your K9 to detect and safely alert for explosive substances. - Conduct operational searches in buildings, vehicles, ships, and planes. - Train your dog for the specialized work of mine detection. In the high stakes realm of explosive detection, where even the smallest mistake can have fatal consequences, the margin of error is zero. Well trained dog-handler teams can play a key role in explosive detection, but only if their training is top notch. Dr. Resi Gerritsen and Ruud Haak have worked with police departments around the world to help them establish and improve their K9 explosive detection training programs, and in this book they share their expertise with handlers and trainers looking to enhance their own

performance. They teach how to pick the right dog for explosive detection work, how to train the dog to detect explosives, and how to properly execute a variety of training and operational searches. They also provide some of the background knowledge you'll need about common explosives and the many factors that can influence a K9's work. Along with essential health and safety precautions for you and your dog, you'll also learn how to test and certify dogs and handlers to ensure excellent performance in the field.

"This book will delight both animal lovers and military buffs!" — Elizabeth Letts, bestselling author of *The Eighty Dollar Champion* Millions rallied to the cause of freedom against Nazism and the menace of Imperial Japan. But did you know that some of those heroes had fur, or feathers? War animals guarded American coasts against submarine attack, dug out Londoners trapped in bomb wreckage, and carried vital messages under heavy fire on Pacific islands. They kept up morale, rushed machine gun nests, and even sacrificed themselves picking up live grenades. Now Robin Hutton, the bestselling author of *Sgt. Reckless: America's War Horse*, tells the heart-warming stories of the dogs, horses, mules, pigeons—and even one cat—who did their bit for the war effort. American and British families volunteered beloved family pets and farm dogs to aid in the war effort; Americans, including President Roosevelt, bought honorary commissions in the reserves for lapdogs and other pets not suitable for military duties to “exempt” them from war service and raise money to defeat Hitler and Tojo. Many of these gallant animals are recipients of the prestigious PDSA Dickin Medal, the “Animals’ Victoria Cross.” In *War Animals: The Unsung Heroes of World War II* you’ll meet: -Judy, the POW dog who helped her beloved human survive brutal Japanese prison camps -Cher Ami, the pigeon who nearly died delivering a message that saved American troops from death by friendly fire -Beauty, the “digging dog” who sniffed out Londoners buried in the wreckage of the Blitz—along with pets, including one goldfish still in its bowl! -Olga, the horse who braved shattering glass to do her duty in London bombings -Smoky, the Yorkshire terrier who did parachute jumps, laid communications wire through a pipe so small only she could navigate it, became the first therapy dog—and starred on a weekly TV show after the War -Simon, the war cat whose campaign against the “Mao Tse Tung” of the rat world saved food supplies and his ship’s crew -Chips, who guarded Roosevelt and Churchill during the Casablanca Conference, and the only dog to earn a Silver Star for his heroics The shining loyalty and courage of these heroes is a testimony to the enduring bond between us and the animals we love.

"...Whether dogs should be trained for work, and what considerations should apply before a dog is put to work. Safe warm-up and cool down exercises are offered, as well as ways to improve the K9s general fitness level and ability to endure the stresses of K9 work. There is also a chapter on the dog's ability to endure extremes of heat and cold, and ways to prevent illness and injury from working in those extremes."
