Rather like an automatic retune, the procedure for doing a manual retune varies by manufacturer so if you ' re unsure what buttons to press, check out your instruction manual or download one from your TV manufacturers website. If you ' ve found how to do an automatic retune in your TV settings menu, then manual retune should normally be nearby.

Step 1, Make sure you have the TV's original remote. While some non-LG, third-party or universal remotes can be used to access your LG TV's service menu, you'll have the greatest chance of success if you use the remote that came with your TV. Step 2, Select a TV channel. Using the INPUT button on your remote to select the TV as the input source, then select any TV channel. You may not be able to access the service menu if you don't do this. Step 3, Hold both your remote's MENU button and the ...

By Edmund Lukavics. When you purchase and set up a new LG TV, you must program channels into the television set. Programming channels into the television allows you to access those channels using your remote control or the manual controls on the television set.

There are two ways of programming channels into your LG TV; you can choose to have the television set automatically detect and program channels, or you can manually enter channels yourself.
