was growing up impoverished in China, he vowed his life would be different. Through hard work and sheer tenacity he earned an American college degree and returned to his native country to establish himself in business. There, he met his future wife, the highly intelligent and equally ambitious Whitney Duan who was determined to make her mark within China ' s male-dominated society. Whitney and Desmond formed an effective team and, aided by relationships they formed with top members of China ' s Communist Party, the so-called red aristocracy, he vaulted into China ' s billionaire class. Soon they were developing the massive air cargo facility at Beijing International Airport, and they followed that feat with the creation of one of Beijing ' s premier hotels. They were dazzlingly successful, traveling in private jets, funding multi-million-dollar buildings and endowments, and purchasing expensive homes, vehicles, and art. But

in 2017, their fates diverged irrevocably when Desmond, while residing overseas with his son, learned that his now ex-wife Whitney had vanished along with three coworkers. This is both Desmond ' s story and Whitney ' s, because she has not been able to tell it herself.

From Pulitzer Prize-winning journalist and culture critic Christina Binkley comes an updated edition of her New York Times bestselling account of sex, drugs, and the rise of Las Vegas. With a new prologue on the rise and fall of Steve Wynn. The Strip. Home to some of the world's grandest, flashiest, and most lucrative casino resorts, Las Vegas, with its multitude of attractions, draws millions of tourists from around the world every year. But Sin City hasn't always been booming: modern Vegas exists largely thanks to the extraordinary vision, and remarkable hubris, of three competing business moguls: Kirk

Kerkorian, Dr. Gary Loveman, and Steve Wynn. And in the wake of #MeToo revelations, not all empires survive. Having had personal access to all three tycoons, Binkley explains how their audacious efforts to reach the top-and to top one another-shaped the city as it stands. She takes us inside their grandest schemes, their riskiest deals, and the personalities that drove them to their greatest successes, and their most painful defeats. In this updated edition, she reveals the inside story of how Steve Wynn, the winner who took all, ultimately lost everything-twice. Sharp, insightful, and revealing, Winner Takes All is the gripping story of how billions of dollars and the unparalleled drive for power turned dreams into larger-than-life reality. "It's a great drama on the greatest stage. . . Wynn, Kerkorian, and Loveman represent three opposing business personalities, three styles of achieving success. On the Vegas Strip, they're pitted against one another like gladiators, and

President Barack Obama, in his 2011 State of the Union Address, called America "the nation of Edison and the Wright brothers" and "of Google and Facebook." U.S. Chief Information Officer, Steven VanRoekel, said that America has become a "Facebook nation" that demands increased transparency and interactivity from the federal government. Facebook as a nation in 2012 would be the third largest country in the world with over 900 million citizens, after China and India. This book portrays the social media ecosystem as a world of increasing Total Information Awareness, which is essentially a civilian version of the controversial Total Information Awareness program unveiled in 2002 by the Defense Advanced Research Projects Agency (DARPA) at the U.S. Department of Defense. Back in the 60's,

Acces PDF Restaurant Mogul Project Viri Business Answers

DARPA initiated and funded the research and development of Advanced Research Projects Agency Network (ARPANET) that went online in 1969. The success of ARPANET gave rise to the global commercial Internet in the 90's and the new generation of Fortune 500 companies today including Amazon.com, Google, eBay, and Yahoo!. As if life comes full circle in the 21st century, private businesses and the ubiquity of social networks such as Facebook, Google+, Twitter, and YouTube are creating the technologies and infrastructures necessary for the DARPA-proposed Total Information Awareness program. WikiLeaks founder Julian Assange called Facebook "the most appalling spying machine that has ever been invented." Indeed, military and civilian technologies have interwoven into every fabric of our society, as Facebook co-founder and CEO Mark Zuckerberg said, "We exist at the intersection of technology and social issues." This book offers

discourse and practical advice on the privacy issue in the age of big data, the rise of Facebook nation, and Total Information Awareness. Opening with President Ronald Reagan's 1984 National Security Decision Directive and ending with George Orwell's novel 1984, the author takes us on a roller-coaster ride through Facebook's botched IPO, Carrier IQ, Kony 2012, SOPA/PIPA blackout, cyber bullying, crime fighting, and a host of other timely issues facing our Facebook nation. Social media strategists, information architects, social scientists, policymakers, and academic scholars in the Program in Science, Technology, and Society (STS) will find this book a valuable asset.

“ This is a book to savor, especially if you ’ re a fast-food fan. ” —Bookpage "This fun, argumentative, and frequently surprising pop history of American fast food will thrill and educate food lovers of all speeds." —Publishers Weekly Most any honest person can own up to harboring at least one fast-food guilty pleasure. In Drive-Thru Dreams, Adam Chandler explores the inseparable link between fast food and American life for the past century. The dark underbelly of the industry ’ s largest players has long been scrutinized and gutted, characterized as impersonal, greedy, corporate, and worse. But, in unexpected ways, fast food is also deeply personal and emblematic of a

larger than life image of America. With wit and nuance, Chandler reveals the complexities of this industry through heartfelt anecdotes and fascinating trivia as well as interviews with fans, executives, and workers. He traces the industry from its roots in Wichita, where White Castle became the first fast food chain in 1921 and successfully branded the hamburger as the official all-American meal, to a teenager's 2017 plea for a year ' s supply of Wendy ' s chicken nuggets, which united the internet to generate the most viral tweet of all time. Drive-Thru Dreams by Adam Chandler tells an intimate and contemporary story of America—its humble beginning, its innovations and failures, its international charisma, and its regional identities—through its beloved roadside fare.

today, including those set in historical times and particularly in the ancient world. This volume explores the varied depictions of the ancient world in video games and demonstrates the potential challenges of games for scholars as well as the applications of game engines for educational and academic purposes. With successful series such as “ Assassin's Creed ” or "Civilization ” selling millions of copies, video games rival even television and cinema in their role in shaping younger audiences' perceptions of the past. Yet classical scholarship, though embracing other popular media as areas of research, has so far largely ignored video games as a vehicle of classical reception. This collection of essays fills this gap with a dedicated study of receptions, remediations and representations of Classical Antiquity across all electronic gaming platforms and genres. It presents cutting-edge research in classics and classical receptions, game studies and
