This textbook teaches the principles and applications of fermentation technology, bioreactors, bioprocess variables and their measurement, key product separation and purification techniques as well as bioprocess economics in an easy to understand way. The multidisciplinary science of fermentation applies scientific and engineering principles to living organisms or their useful components to produce products and services

beneficial for our society. Successful exploitation of fermentation technology involves knowledge of microbiology and engineering. Thus the book serves as a must-have guide for undergraduates and graduate students interested in Biochemical Engineering and Microbial Biotechnology

This transcript of a witness seminar, one of a series of five, provides an intriguing and instructional collection of memoires and insights from senior members of the dental profession and others, especially since the inception of the NHS. Such seminars capture the knowledge of 'witnesses' to the events discussed. These seminars and associated activities form part of a history of dentistry made possible by a significant donation from the eponymous sponsor of the John McLean Archive of Living Dental History. Dr John McLean was a unique icon of British dentistry. He was a leader of the profession, holding many prestigious positions, including President of the BDA, and an expert on dental materials, operative dentistry and prosthodontics. He authored over 100 papers for peer-reviewed journals. The seminars are part of a fitting memorial to a great man and provide information that cannot easily be obtained in books and clinical and research journals.

The JMP 10 Scripting Guide provides extensive instructions for using the powerful JMP Scripting Language (JSL). This book begins with an introduction to JSL terminology, examples of how to write your own scripts, and details on script development tools such as the debugger and editor. A description of the language elements follows along with examples of writing JSL scripts to manipulate data tables, platforms, display objects, three-dimensional graphs, and matrices. Learn how to integrate JMP with SAS, R, and Microsoft Excel. Design applications in a drag-and-drop interface called Application Builder, and create add-ins to extend JMP functionality with Add-In Builder. Other topics include examples of scripts for common tasks and a syntax reference, which defines the functions, operators, and messages used in JSL. This title is also available online.

RT Book Reviews 2015 Reviewers Choice Award Winner for Best Steampunk Romance "McMaster once again proves her remarkable gift for cleverly fusing a nonstop, action-driven story, a deliciously dark and atmospheric setting, and off-the-charts sensuality into one riveting read."—Booklist Fifth in a thrilling steampunk paranormal romance series, Lady Aramina finally has the means to destroy her nemesis, Leo Barrons—the only man who troubles her heart and tempts her body. When her beloved father was assassinated, Lady Aramina swore revenge. The man

responsible is well beyond her grasp, but his dangerously seductive heir, Leo Barrons, is fair game. When Mina obtains evidence proving that Leo is illegitimate, she has the means to destroy both the killer and his son, a man who troubles her heart and tempts her body. A woman of mystery, Mina's long driven Leo crazy with glimpses of a fiery passion that lurks beneath her icy veneer. He knows she's hiding something, and he's determined to unravel her layer by silken layer. He just doesn't expect the beautiful liar to be the key to overthrowing the corrupt prince consort...or to saving his own carefully walled-off heart. London Steampunk Series: Kiss of Steel (Book 1) Heart of Iron (Book 2) My Lady Quicksilver (Book 3) Forged by Desire (Book 4) Of Silk and Steam (Book 5) Praise for Bec McMaster: "Action, adventure, steampunk, and blazing hot seduction...Bec McMaster offers it all."—Eve Silver, author of Sins of the Flesh for Kiss of Steel "Deftly blends elements of Steampunk and vampire romance with brilliantly successful results...darkly atmospheric and delectably sexy."—Booklist Starred Review for Kiss of Steel "Edgy, dark, and shot through with a grim, gritty intensity, McMaster's latest title adds to her mesmerizing steampunk series with another gripping, inventive stunner."—Booklist, starred review for Heart of Iron "Rich, dramatic, romantic, and dangerous..."—Publishers Weekly for Of Silk and Steam

THESE ARE NOT THE WORLDÕS FINEST... Batman and SupermanÑseparately, theyÕre two of the greatest heroes the world has ever seen. Together, theyÕre an incredible team...and the greatest of friends. But Batman and Superman have never teamed up like this before. This is a Superman whoÕs lost most of his powers and had his identity revealed to the entire world. Someone is coordinating a series of attacks against him that have brought him to the brink of destruction, and he needs the worldÕs greatest detective to help him put the clues together. But this Batman isnÕt Bruce Wayne. Jim Gordon now protects Gotham as the robot-suited Batman, and he has no reason to trust Superman...especially when his presence in Gotham seems to have brought on a war with a race of super-powered subterranean beings! They may not be the Batman and Superman who have done amazing things together in the past. But if they canÕt learn to work together now, there may no longer be a Gotham City to protect! Spinning off of the events of BATMAN VOL. 8: SUPER HEAVY and SUPERMAN VOL. 1: TRUTH, acclaimed writer Greg Pak (ACTION COMICS) and artists Ardian Syaf (GREEN LANTERN) and Cliff Richards (LOBO) chronicle the first meeting between two very changed heroes, with guest appearances by Batgirl, Aquaman, Red Hood and more! Collects BATMAN/SUPERMAN #21-27.

How does a company constantly win more business than its rivals? A key factor is the ability to create proposals that outshine those from even the strongest competitors. Powerful Proposals helps businesses maximize the selling power of their proposals, with proven strategies for going beyond "this is what we do" documents in favor of customer-centered offers that highlight the tangible benefits your company offers. This powerful process offers tools and techniques that will let any firm: * assess their "winner or loser" proposal status and take proactive steps to become a winner * address the ""Big Four"" questions that a proposal must answer to be successful * create "A+" proposals in less time with less wasted effort via a simple, repeatable process * neutralize the issue of price when the firm is not the low-price provider Powerful Proposals takes readers step by step through designing executive summaries, writing themes, and generating the text. There is also valuable information on strategy, graphics, callouts, and other visual elements.

For the past two decades, Mark Danner has reported from Latin America, Haiti, the Balkans, and the Middle East. His perceptive, award-winning dispatches have not only explored the real consequences of American engagement with the world, but also the

relationship between political violence and power. In Stripping Bare the Body, Danner brings together his best reporting from the world's most troubled regions—from the fall of the Duvalier dictatorship in Haiti to the tumultuous rise of Aristide; from the onset of the Balkan Wars to the painful fragmentation of Yugoslavia; and finally to the disastrous invasion of Iraq and the radical, destructive legacy of the Bush administration. At a time when American imperial power is in decline, there has never been a more compelling moment to read these urgent, fiercely intelligent reports.

J.California Cooper writes with a transparent clarity and such exuberant energy that her characters leaop off the page, bursting with the stories they've got to tell--stories of simple people, stories of families and fate, of love and marriage, of death and the triumph of the human spirit. Cooper is that most rare and wondrous thing: a true storyteller whose tales trace the energies of life itself.
