Target 3 Billion: Innovative Solutions Towards Sustainable Development talks about the 3 billion people across the globe who live in villages and are often deprived of basic resources. The authors explain how the global model of development has failed to eradicate poverty.

Inspiring Quotations by Indian President Dr. APJ Abdul Kalam

What is it that we as a nation are missing? Why, given all our skills, resources and talents, do we settle so often for the ordinary instead of striving to be the best? At the heart of Ignited Minds is an irresistible premise: that people do have the power, through hard work, to realize their dream of a truly good life. Kalam ' s vision document of aspiration and hope motivates us to unleash the dormant energy within India and guide the country to greatness.

Between the 18th and 19th centuries, Britain experienced massive leaps in technological, scientific, and economical advancement

The World Health Organization's Global Technical Strategy for Malaria 2016- 2030 has been developed with the aim to help countries to reduce the human suffering caused by the world's deadliest mosquito-borne disease. Adopted by the World Health Assembly in May 2015 it provides comprehensive technical guidance to countries and development partners for the next 15 years emphasizing the importance of scaling up malaria responses and moving towards elimination. It also highlights the urgent need to increase investments across all interventions - including preventive measures diagnostic testing treatment and disease surveillance- as well as in harnessing innovation and expanding research. By adopting this strategy WHO Member States have endorsed the bold vision of a world free of malaria and set the ambitious new target of reducing the global malaria burden by 90% by 2030. They also agreed to strengthen health systems address emerging multi-drug and insecticide resistance and intensify national cross-border and regional efforts to scale up malaria responses to protect everyone at risk.

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

It ' s game time again! Press play on *The Switcheroo Rescue*, the third graphic novel in the awesome-packed, New York Times bestselling series by YouTube ' s favorite family of gamers, FGTeEV! The FGTeEV family have survived their fair share of glitchy gaming consoles! But now their luck has taken a decidedly strange turn-for-the-worse when Duddz bonks heads with Cecil and boom, the switcheroo happens. They wind-up flip-flopped into each other ' s body. Now Cecil has Duddz ' s lightning fast reflexes and mad gaming skills, while Duddz is stuck with Cecil ' s stubby fingers and really bad banana allergies. But the two frenemies have no choice but to work together if they want to get back into their own bodies and stop the mayhem-wrecking ghost that their antics has unleashed! But when their plans backfire and Cecil turns them power mad, Moomy, Chase, Lexi, Mike, and Shawn to join have to step in to try to save the day. Can the family find a way to stop Cecil, save Duddz, banish a nasty ghost, and get everyone back into their rightful bodies before it ' s too late? Game like you never gamed before in the fun-filled third graphic novel adventure from YouTube sensation FGTeEV, with more than 19 MILLION subscribers and over 20 BILLION views!

Dr. A. P. J. Abdul Kalam had a great belief in the power of the youth. He met over 21 million children and young people in India and outside and spoke to them about the power of knowledge, ambition, moral behavior and the need to bring about change in society. He travelled to almost every corner of the country meeting the youth in schools, universities and institutions and interacted with them like a committed teacher. In *Learning How to Fly* some of his nearly 2, 000 lectures have been compiled. These lectures were addressed to teachers and students in school and beyond. In each one of them he has spoken about preparing oneself best for life, to identify and overcome challenges and how to bring out the best within each individual. Through stories from his own life, those of his teachers and mentors as well as stories of some of the greatest men and women of the world and the latest developments in science and technology, he shows us the importance of dreams and the hard work needed to turn those dreams into reality. Filled with warmth, inspiration and a positive attitude, *Learning How to Fly* is essential reading for every Indian, young and old.

NEW YORK TIMES BESTSELLER • LONGLISTED FOR THE NATIONAL BOOK AWARD • One of today ' s most insightful and influential thinkers offers a powerful exploration of inequality and the lesson that generations of Americans have failed to learn: Racism has a cost for everyone—not just for people of color. WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • ONE OF THE BEST BOOKS OF THE YEAR: Time, The Washington Post, St. Louis Post-Dispatch, Ms. magazine, BookRiot, Library Journal • LONGLISTED FOR THE ANDREW CARNEGIE MEDAL • “ This is the book I ' ve been waiting for. ” —Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* Heather McGhee ' s specialty is the American economy—and the mystery of why it so often fails the American public. From the financial crisis of 2008 to rising student debt to collapsing public infrastructure, she found a root problem: racism in our politics and policymaking. But not just in the most obvious indignities for people of color. Racism has costs for white people, too. It is the common denominator of our most vexing public problems, the core dysfunction of our democracy and constitutive of the spiritual and moral crises that grip us all. But how did this happen? And is there a way out? McGhee embarks on a deeply personal journey across the country from Maine to Mississippi to California, tallying what we lose when we buy into the zero-sum paradigm—the idea that progress for some of us must come at the expense of others. Along the way, she meets white people who confide in her about losing their homes, their dreams, and their shot at better jobs to the toxic mix of American racism and greed. This is the story of how public goods in this country—from parks and pools to functioning schools—have become private luxuries; of how unions collapsed, wages stagnated, and inequality increased; and of how this country, unique among the world ' s advanced economies, has thwarted universal healthcare. But in unlikely places of worship and work, McGhee finds proof of what she calls the Solidarity Dividend: the benefits we gain when people come together across race to accomplish what we simply can ' t do on our own. *The Sum of Us* is not only a brilliant analysis of how we arrived here but also a heartfelt message, delivered with startling empathy, from a black woman to a multiracial America. It leaves us with a new vision for a future in which we finally realize that life can be more than a zero-sum game.

Tinderbox tells the exclusive, explosive, uninhibited true story of HBO and how it burst onto the American scene and screen to detonate a revolution and transform our relationship with television forever. The Sopranos, Game of Thrones, Sex and the City, The Wire, Succession...HBO has long been the home of epic shows, as well as the source for brilliant new movies, news-making documentaries, and controversial sports journalism. By thinking big, trashing tired formulas, and killing off cliches long past their primes, HBO shook off the shackles of convention and led the way to a bolder world of

content, opening the door to all that was new, original, and worthy of our attention. In *Tinderbox*, award-winning journalist James Andrew Miller uncovers a bottomless trove of secrets and surprises, revealing new conflicts, insights, and analysis. As he did to great acclaim with SNL in *Live from New York*; with ESPN in *Those Guys Have All the Fun*; and with talent agency CAA in *Powerhouse*, Miller continues his record of extraordinary access to the most important voices, this time speaking with talents ranging from Abrams (J. J.) to Zendaya, as well as every single living president of HBO—and hundreds of other major players. Over the course of more than 750 interviews with key sources, Miller reveals how fraught HBO's journey has been, capturing the drama and the comedy off-camera and inside boardrooms as HBO created and mobilized a daring new content universe, and, in doing so, reshaped storytelling and upended our entertainment lives forever.
