Generic instructions for cleaning a Timex pinlever mechanical or a similar non-jeweled movement. This is a modification from the official 1966 Timex service manual procedure. If using these steps on a non-Timex, you need to handle the mainspring differently--Timex has a lubricating coating that isn't removed by watch cleaning solutions.

The Internet has had a profound effect on collecting—because of the Web, collectibles are now more readily available, collections more easily displayed for a wider audience, and collectors' online communities are larger and often quite intimate. In addition, the Web has added new items to the pantheon of collectibles, including digital bits that, whether considered virtual or material, are nevertheless collectible. In this work, essays discuss the age-old habit of collecting and its modern relationship with the Internet. Topics include individually authored websites, online auctions, watches, eyewear, Kelly dolls, the gambler's rush of online acquisition, mp3s, collecting

First written by the definitive expert in 1957, Watch Repair for Beginners is the ideal book for anyone who wants to know how to fix their own watch. Learn what horology is; the basics of watch and clock repairing; the mechanics of a clock; how the wheels work; the difference between an automatic watch, a stop watch, and a chronograph; and so much more. With detailed

black-and-white illustrations, this timeless classic is a must-have addition to any horology lover's collection.

Including coverage of topics such as diversity, cycle time, creativity, learning organizations and the Internet, this work on quality and competitiveness contains exercises and case studies.

Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch

in precise and meticulous detail: a thing which has never been done so completely before in the many books on the same subject. As a text book it is a revelation. Taking nothing for granted, except the ability to read and comprehend a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing ...and to deal with them thoroughly is quite a programme - it takes 300 pages containing 24 chapters, two appendices and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best illustrated book on practical horology yet issued, and one of the
